

Promotion of No Shark Fin Corporate Pledge to Financial Service Corporations

WWF-Hong Kong's "No Shark Fin Corporate Pledge" has successfully gained significant support from different sectors since its launch in 2007. Recently, with the support of [Hong Kong Shark Foundation](#) in promoting this specifically to financial service corporations in Hong Kong, we have further expanded the list of corporations pledged not to consume or promote shark fin in their corporate functions. Thanks to all the financial service corporations for stepping up and leading the way in environmental protection.
