Student Worksheet – Suggested Answer

Part 1 Dos and Don'ts in marine parks

Activities which we should not do in marine parks:

Part 2 Diversity of marine animals

Coral community: starfish, sea cucumber, clown fish, coral fish, crab, jellyfish, sea urchin.

Sandy beach: starfish, sea cucumber, clam, crab.

Part 3 Underwater metropolis

What kind of animals or plants can you spot?

Jellyfish, seahorse, coral fish, coral, sea grass, starfish, clam.

Why marine animals hide themselves? In what other ways can they fulfil such purpose(s)?

They hide themselves to escape from predation. Some of the animals are well camouflaged.

Part 4 Our precious marine treasures

1. **3** kinds of food which come from the sea: fish, sea weed, salt, prawn, crab, sea cucumber, sea urchin.
2. **3** objects from the sea, which are not food for human but they are useful in some ways: shell, sea grass, sea water, sand, rock.
3. **1** object found in the sea, which is neither edible nor useful: rubbish, it is a kind of pollution from human.

Part 5 Reflection and action: protect our marine environment

1. Continue to learn eagerly about our marine environment and animals and how to take part in the conservation efforts. ✓
2. Instead of taking a soap bath, you choose to take a quick shower in order to reduce the use of water. ✓
3. You went to a beach and saw a beautiful sea star on the sandy shore, you picked it up and brought it home to include in your fish tank. ✗
4. Persuade others to stop eating shark's fin and other fishes close to extinction, e.g. humphead wrasse. ✓
