

## SHARK-FREE BANQUET SUPPORTING WWF TO SAVE SHARKS

To support WWF's shark conservation initiative, today you will be served the shark-free banquet menu.

Sharks are now facing the threat of extinction due to poorly managed fisheries and our voracious appetite for shark fin. To leave a living ocean for future generations, WWF launched the "Alternative Shark-free Menu" programme in 2010 to collaborate with caterers and offer alternative shark-free banquet menus, in addition to existing menus.

Please join WWF and help spread the shark conservation message. [wwf.org.hk/shark](http://wwf.org.hk/shark)
